NINE HOURS OF STRENUOUS LIFE

President Has a Busy Day in New Orleans, His Reception Being Most Cordial.

DEMONSTRATION AT LUNCHEON.

Every Man Rose and Gave Forth Frantic Cheers-Praises Louisiana's Congresssional Delegation.

New Orleans, La., Oct. 26 .- At the end of nine strenuous hours of varied entertainment in New Orleans, which brought his exceptionally pleasant trip through the south to a close, President Roosevelt at 6:30 o'clock tonight boarded the light house tender Magnolia and began the first stage of his return journey to the national capital. No newspaper reporters accompanied him, and ne will be out of touch with the world throughout the night, but daylight tomorrow is expected to bring news of his successful transfer to the armored crulser West Virginia, which lies at anchor off the mouth of the river to receive him, and of the beginning of the d stage of the journey. For fou he will be absent from American l, which has never heretofore hap-ned to a president during his in-moency, but through the means of eless telegraphy it is promised that will be seldom out of communication

Probably for the first time in his public career the president was compelled to abandon public address before he had got well arted on it. It was contemplated that started on it. It was contemplated that the military and civic parade should pass in review before the president at the city hall, but the crowd which gathered at this point was so tremendous that neither the police nor the troops were able to move it, and the president, foresceing a possible catastrophe in the green of a paris finally gave in the event of a panic, finally gave up the attempt to speak and left the platform. When the presi-dent decided to abandon his effort he shouted to the throng to go home and be good citizens, and then disappeared into the mayor's parlors, well nigh exhausted. To those about him he expressed himself as immensely pleased with the demonstration in his honor, which was far beyond his expectations which was far beyond his expectations or the expectations of the members of his party, and said that the reception was the greatest that he had had since he had started on his trip.

The demonstration at the luncheon was scarcely less exuberant. When the president entered the superbly decorated dining hall the 625 banqueters rose as one man and gave way to frantic cheers. Every thought he

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. It is different with the average man or woman. They attempt constantly to run by the dan-ger signals of to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes in the second of the se thousands of lives every year. When the appetite becomes irregular or entirely gives out when sleep is troubled and broken, when there is a constant feeling of dullness and languor. Nature is hoisting the danger signal. The stomach and its allied organs are falling in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures discusses of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"I have had so much benefit from your medicines am glad to say a few words that you may use for publication." Writes Mrs. J. K. Downes, Crystal Lake, Conn. "Had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst allments were headache, frequent pains around heart and under right shoulder-blade. My bands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days cared but little for food; I lost flesh; felt so tired and miserable it seemed I couldn't do any housework. Took medicine from my physician, but received no benefit. Bought a bottle of 'Golden Medical Discovery,' and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well."

Now I am emboldened by your generous kindness and confidence to say that it has been indeed a pleasure to deal with Louisiana's representatives in the senate and in the lower house of Congress, heaving whenever I had to of Congress, because whenever I had to do with a great question of national importance I could go to them convinced that if I could show them it was really for the good of the nation, they would stand for it.

"Now, from the representatives of Louisiana I was sure of support wheth."

Louisiana I was sure of support, whether it was a question of building up and keeping at a high point of efficiency the United States navy, or whether it was a question of building the Panama canal. And, mind you, gentlemen, the lwo questions go together. One thing that as president of this country! won't do is to make a bluff that I can't make good. I don't intend on behalf of the sition will be advantageous to the na-tion, but if I like it I am going to keep it. And I am sure that you gentlemen know it her been an utter mistake to think of me as a man desirous of seeing this nation quarrelsome. I have no respect either for the nation or for the individual that brawls, I want to see this nation do as the individual men in the nation who would respect themselves should do, scrupulously regard-ful of the rights of others and honestly endeavoring to avoid all cause of diffi-culty. But I want, on behalf of this nation, the peace that comes not to the coward who cringes for it, but the peace of the Just man armed, who asks

it as a right.

"The governor spoke of the Panama canal, It's a big work, and it is a very big nation that can do that kind of work. I expect soon to have a report shape that work will take. GOVERNMENTAL CHANGE IN RUSSIA

Czar Admits Time Has Come to Limit Autocratic Power-and Grant People Soma

M. Witte Told Him That, in His Opinion, Nothing Could Now Save the Country From Anarchy,

St. Petersburg, Oct. 26.-As the result of a series of special ministerial councils under the presidency of Count Witte, held to adopt measures to deal with the internal situation, the new national assembly law and laws granting practical freedom of the press and of speech, were adopted, and a measure will be promulgated forthwith.

Upon the pre-emptory demand of Prince Hilkoff, the minister of railroads, the budget covering the remuneration of railroad employes will be revised to meet the promises made last spring. Unless this was done, the prince announced, he would resign.

Count Witte, even in advance of the promuigation of his formal appointment as premier, completely dominates the

Interesting details have been learned by the Associated Press regarding Count Witte's interview with Emperor Nicholas last week, at which it was agreed that the time had come to limit the autocratic power and give the people a real share in the government of the empire.
The emperor asked Count Witte to

speak frankly, and after listening to the statesman's exposition of the situation he appeared to be utterly unnerved by the deplerable state of affairs and cried out that he was weary of the struggle and felt like leaving all and fleeing to Darmstadt, hence probably the ori-gin of the report that the emperor was

Count Witte, however, told the emperor that in his opinion not even a republic could now save Russia from anarchy. It was the emperor's duty to the people and the country to face the situation by meeting the classes—namely, to abrogate the autocratic power and grant a constitution by creating a ministry responsible alike to the crown and to the respesentatives of the nation. The emperor finally accepted, re-questing Count Witte to draft a profect, which in skeleton form he ap-proved last Sunday, when the count agreed to accept the premiership on condition that he could name the min-isters, and that they should report to his majesty only through himself as head of the cabinet.

Minor tumulis are reported from other cities, but in general the strikers are adhering to their determination to make the protest in orderly fashion in order to show themselves to be fit

for self-government.

The strike has proved most effective in forcing the government to speedy action on measures which have been slumbering in commission for many weeks. Wednesday night the ministers after a five bourse easier and the second strength of the second strength of the second ters after a five hours' session finished the final draft of a law creating a re-sponsible council of ministers, and to-day completed the revision of the statute granting freedom of assembly both Nicholas tomorrow for signature, night the ministers held another ses-sion, meeting formally as the Silski commission, but in reality as Count Witte's cabinet, to discuss the election regulations of the douma. It was a short session and mainly concerned the

elections in Siberia.

It is reported that M. Witte, simultaneously with the promulgation of the cabinet statute, will issue a proclamation defining his policy and asking the nation to give a fair trial to the new governmental system and resist the ef-

forts of revolutionaries to throw the en-tire country into a state of anarchy. The source of the funds which are apparently at command of the revoluapparently at command of the revolutionists is a mystery. In Moscow the revolutionary committee is paying strikers 15 cents daily and has invested large sums in arms and ammunition. The rifles and cartridges taken in Finland and Poland were part of those purchased by the committee. It is conjectured that financial aid is beng received from Socialists and revolu-ionists abroad, and that some of it nay come from America in response to n appeal published recently in New York newspapers on behalf of the Jew-

The tactics of the revolutionists in St. Petersburg are apparently to create a reign of terror. Warnings have been sent merchants on the Nevsky, Morskala, Ascension and other fashionable

thoroughfares to close in order to avoid pillage and the torch. The doctors are receiving notifications ordering them to discontinue visits to the sick, on penalty of death. Word has been

on penalty of death. Word has been passed among servants mysteriously that a mob was preparing to sack the residences of the better classes.

Apprehension apparently prevails in imperial circles. It is reported that the imperial yacht Polar Star is lying off Cronstadt constantly under steam, and that the smaller yacht Estrella is held in waiting at the wharf at Peterhof for emergency use.

PANIC IN ST. PETERSBURG.

St. Petersbur • was in a panic today, but to a large caterit are arently with-out reason. The most darming rum-ors were in circulation, and the shop-keepers on all except a few of the principal streets closed their stores, board ed up the doors and windows, while peaceful minded inhabitants kept with in doors. Anxiety was evidenced in the whole atmosphere of the city, but so far nothing has occurred to justify these fears. There were no disorders. Gen. Treport, who has been placed in command of the St. Petersburg garri-son and given an additional division of reinforcements, declares that he is an ply able to maintain order and the police are allowing the strikers to vent their enthusiasm so as to avoid a demonstration. Gen. Trepoff instructed the police not to interfere with the parades so long as they were orderly, but he gave notice tonight that he was prepared to cope firmly with any disorder.
He had printed in all the evening papers a notification that the troops would temorrow be ordered to use hall cartridges in case there should be any By the greatest exertions the govern-

By the greatest exertions the government today succeeded in moving trains manned by military operatives on a few rationds. Traffic was resumed irregularly on the Moscow & St. Petersburg rafficad and on lines from Moscow to Brest and Kazan. The first efforts were directed to the moving of cattle trains so as to meet the pinch of approaching famine in the two capitals, and one train load of cattle arrived at St. Petersburg and another at Moscow. St. Petersburg and another at Moscow.

A scanty supply of milk, butter and eggs is arriving in St. Petersburg over the Finland railroad, the employes of which refuse to strike. The situation. however, cannot be regarded as mucl improved. The strikers at their meet g today were as determined as ever continue the strike and the full rce of the government railroad battallons is almost helpless in the face of the general strike on the railroads. The most encouraging feature of the situation is the absence of any widespread disorder.

Ficturesque details have been re-ceived of the uprising at Kharkoff, where students and strikers took pos-session of the locality in the center of the city containing the university, the cathedral and other buildings, threw up barricades, constructed a regular fortress and elected a provisional govern-ment, but cool heads on either side effected an arrangement.
